

HEARTLINK - EALING HEART SUPPORT GROUP – FEBRUARY 2022

These past months have presented us with opportunities and challenges. In September we were awarded a small grant from Ealing Council and West London Mental Health Trust. The grant is used to organise 'Days Out' for members experiencing loneliness and isolation, a direct consequence of the pandemic. Our first outing to Denham Country Park was a great success. However, our outing to Southbank Winter Market was cancelled due to Omicron circulating widely in London.

The past year also saw several members pass away. Most recently, Len Box, a devoted husband and father who had a kind word for everyone he met and Councillor Tejinder Dhami, ex-Mayor of Ealing Council our benefactor and sponsor. Councillor Dhami leaves a huge legacy; not least his loyal public service over many years, his deep-seated sense of service to humanity and his contribution in raising much needed funds to improve the health and welfare of patients with heart disease. Heartlink will always be indebted to his patronage and his support to Ealing Hospital Cardiology.

Both were much loved. Our deepest condolences are extended to their families, and to all who have lost loved ones during these very difficult times.
